

Instructions for Earning One CEU

For Participation in Intensive Intervention in Mathematics Asynchronous Course

Requirements and Restrictions

Participants in *Intensive Intervention in Mathematics* may use the attached form to apply for one CEU. This CEU is only recognized by the Alaska Department of Education & Early Development and can only be used to renew an Alaska Professional Teaching Certificate (or Master Teacher Certificate, Type B Administrative Certificate, or Type C Special Services Certificate). Please read all the requirements and restrictions below.

- This CEU will be sponsored and issued by the Alaska Department of Education & Early Development. This CEU is not a university-issued credit and cannot be used toward earning or maintaining any degree or licensure other than the renewal of the four certificates listed above.
- This CEU cannot be used to apply for an Initial Teacher Certificate nor for one's first Professional Certificate. It is only useable for the certification renewal application.
- In order to redeem this CEU, a processing fee of \$50 must be paid to Alaska Teacher Certification. This can be paid at the time one submits their certification renewal application.
- This CEU will expire if it is not used during your next renewal application.
- For more information on using a CEU for renewal of an Alaska Teacher or Administrative Certificate, see the Teacher Certification website.

To Apply for the CEU:

To be eligible for a CEU for the *Intensive Intervention in Mathematics* course, participants must submit the following upon completion of the course:

- A completion certificate for each of the following modules:
 - Developing a Scope and Sequence for Intensive Intervention
 - Mathematics Progress Monitoring and Determining Response
 - Selecting and Evaluating Evidence-based Practices in Mathematics
 - Intensive Mathematics Intervention: Instructional Delivery
 - Intensive Mathematics Intervention: Instructional Strategies
 - Whole-Number Content for Intensive Intervention
 - Rational-Number Content for Intensive Intervention
 - DBI for Intensive Mathematics Intervention
- A 2–3 page, single-spaced reflective paper describing:
 - What you learned in the course and its importance to math instruction
 - How you will apply this learning to support your instruction
 - Your understanding of the topics covered in the course
- Enter all the personal information on the following application form, making sure to use your full name as it appears on your Alaska Teaching Certificate.

Once you have completed the CEU application form, sign and scan it. Email the form along with all eight module completion certificates and your reflection paper to the math and science content specialist, email found at [Alaska Standards and Instruction - Education and Early Development](#). Please do not submit the \$50 CEU processing fee at this time.

The form will be reviewed by a DEED employee authorized to approve this CEU. If the submission is complete—including all six journal entries or lesson notes and a reflection paper that demonstrates understanding of the course content—a CEU Certificate of Completion will be emailed to you.

Once you receive it, hold onto the signed, approved CEU Certificate for your records, and/or upload it to your [TEACH-AK](#) dashboard. If you have not registered for an account, you will be required to complete this one-time registration. You can save your certificate to your dashboard until it is time to renew your teacher certification. One year before your teacher certification expires, you can start the renewal application and attach the certificate to the renewal credit section. You will pay the \$50 CEU processing fee at that time as well.

CEU Application

For Participation in Intensive Intervention in Mathematics Asynchronous Course

Personal Information

Enter all requested personal information, making sure to use your full name as it appears on your Alaskan Teaching Certificate.

LAST NAME: _____ FIRST NAME: _____ MIDDLE INITIAL: _____

FORMER LAST NAMES: _____ BIRTHDAY: _____

MAILING ADDRESS
