

Workplace Safety

1.5 hours

Key Area: 3 (Administration)

USDA Professional Standards Codes: 3240, 3450

A safe working environment is critical to the integrity of a School Nutrition Program. The district director provides the leadership needed to maintain a safe work environment in all facilities on an ongoing basis.

At the end of this training, participants will be able to accomplish the following objective.

- Identify principles of creating and maintaining a safe work environment.
